SUSTAINABILITY

DotWorkplace is dedicated to prioritizing sustainability and improving our portfolio to make a positive impact. Our focus is on creating a better experience for everyone involved. We believe in the importance of putting humans at the center of our work, including our own team and yours. Our commitment to caring for people is what defines our humanity. When making decisions or taking action, we always ask ourselves how we can improve. Through thoughtful design, we aim to enhance experiences, build confidence, and contribute to a better world for all.

Materials: **DotWorkplace** is committed to minimizing the disposal of durable furniture in landfills. To promote the recycling of our products, we provide publicly accessible disassembly diagrams. These diagrams not only guide the disassembly process but also identify the materials used in each component. By doing so, we enable future recyclers to transform old materials into new ones.

Life Cycle: **DotWorkplace** partners with nonprofit organizations to offer sustainable solutions for surplus contract office furniture. Through our program, clients can effectively extend the useful life of their furniture by repurposing it. Additionally, this initiative supports local and national charitable organizations through donations, while also diverting a significant amount of materials from landfills through recycling.
